ABOUT ME

I'm a Computer Science student who enjoys building websites and turning ideas or designs into responsive pages. I have hands-on experience building and customizing WordPress websites with Elementor and Gutenberg, while using HTML, CSS, and JavaScript to improve layouts and functionality. I also work with REST APIs and have experience with the MERN stack. I enjoy solving problems, learning new things and building practical projects.

PROJECTS

Developed WordPress Website

www.zsithikanabuildersltd.com

- Assisted in developing and customizing the WordPress website using Elementor.
- Helped create responsive page layouts and improve website content and styling.

Web Development Projects - [GitHub](#)

- Built several frontend and full-stack projects to practice modern web development.
- Created responsive interfaces using HTML, CSS, JavaScript, React, and Tailwind CSS.
